THE CONGLOMERATE

OCTOBER, 2019

**THE NEWSLETTER OF
THE RENO GEM AND MINERAL SOCIETY**

PRESIDENT'S MESSAGE

Tom Nichols

Can you believe it's October? The year has flown by. There's only one more field trip this year - Monte Cristo. See **Rob Kendrick's** column for details. Congratulations to Rob and our Field Trip leaders for a great year. Check out **Julie Hillsabeck's** column for a list of classes where you can learn to polish up those rocks you collected on some of those field trips. To see what can be done with those rocks, go to our Craft Fair, Oct 4, 5 and 6 at Reno Town Mall.

Membership growth is concentrated in the spring, so most of us are now "seasoned" members. Remember, RGMS is *your* Society and you'll get out of it what **you** put into it. Officer elections are in November. You don't have to stand for election to contribute. New Board members who take on helping to make RGMS the successful society it is are appointed. Some new members are already providing essential help, and RGMS thanks them for stepping up. All **you** need to do is check **Renee Samuel's** Volunteer column to see what is needed and volunteer to help your Society grow to new heights.

CONGLOMERATE SUBSCRIPTIONS 2019:

Digital edition: no charge to members

Shortened edition by USPS: \$1 per copy or \$12 annually, in advance

Full edition by USPS: \$1.75/ copy or \$21 annually, in advance

Full edition copies at the meeting: \$2 except to guests. Free to guests.

OFFICERS' REPORTS

The Board minutes are posted on the bulletin board at headquarters monthly. Treasurer's reports are available to any member on request.

PROGRAM

Melissa Petterson, VP

Our October presentation will be from the Nevada Mining Association, on the impact and contributions of mining to our state. Thank you to **Sam Macaluso** for helping arrange this contributor and the special field trip to follow

Dana Bennett is President of the Nevada Mining Association, the trade organization for Nevada's original STEM industry. Before joining the Association in 2014, she served as the Northern Nevada Regional Director for the Governor's Office of Economic Development. After earning a BA and MA in history, she began her policy career by working for the Nevada Legislature for nearly a decade where she staffed committees concerned with state and local government operations, technology in education, health care, and public lands. Between her tenures in the legislative and executive branches, she spent several years in the private sector, operating a policy research business and employed as a legislative advocate with clients in mining, educational innovation, broadcasting, and insurance, among others. With an abiding curiosity about Nevada's history, Dana took a break in her career to earn a PhD in history. Her dissertation explored the intersection between women legislators and tax policy development in Nevada before 1960. Dana has authored three books (one of which was designated a Sesquicentennial Legacy Project) and more than 50 articles, reports, and other publications. She currently serves on the Nevada Board of Economic Development, the Advisory Council for the Kenny Guinn Center for Policy Priorities, the Advisory Board for WGU-Nevada, and the Board of Trustees for the Western States Arts Federation. Dana and her husband, **Shannon Jackson**, now live in Reno.

SEPTEMBER 2019 FIELD TRIP REPORT

Rob Kendrick—Field Trip Director

Well, we had another successful field trip to Gabbs that was well attended. We had over 45 people attend the trip at some point over the three days. Thank you to **Alan Metzger** for rescheduling this trip that had to be postponed in May. Also, thanks goes out to **Eric Fendelander** for leading a large group on Saturday to the jasper area and then onto the “Lori” hole where a group effort paid off for all participants with nice pieces of opalized wood. The “Lori” hole was a spot found by **Lori Connel**. **Charles Jackson** located another tree on the same trip! Everyone left this Gabbs trip with smiles on their faces. As always the pot luck was Awesome! Thanks to everyone for bringing such delicious dishes!

With field trip season winding down you only have one more chance to attend a scheduled field trip to the Monte Cristo range near Tonopah NV. This trip will be led by **Jim Welker** and is scheduled for October 10th-14th. See his article for more information on this trip. That’s all for this month! Happy Hounding!

MONTE CRISTO FIELD TRIP OCTOBER 10-13

Jim Welker

This is a nice area we have not hunted for a couple of years. We will gather Agate, Jasper, Rhyolite and some petrified wood. In one area there is some nice seam agate with pseudomorphs and/or sagenite inclusions. They are pretty colorful rocks with lines. The camping area is located 2.5 miles from Hwy 6 and is a nice flat area. To reach the camping area go South on Hwy 95 to Coaldale junction, Hwy 95 joins Hwy 6. Proceed East toward Tonopah proceed about 6 milesto Blair junction (Hwy 6 & Hwy 265). I stop there and let all traffic pass. Proceed East 4/10 of a mile and turn left on a hard to see dirt road. If pulling a rig I recommend turning a little early and take the turn at a angle. When DOT redid Hwy 6 they did not cut a very good turn off. After turning go 2.5 miles toward hills camp will be on right side. On Thursday afternoon there will be RGMS signs out on Hwy 6 at the turn.

We will leave camp at 8 am each morning. On Saturday the 12th we will have a potluck at 6pm. Any high clearance vehicle will get to the collecting sites. Since we are collecting rocks, we will be in rocky area that have snakes. Dress for rock hounding—no sandals. Bring tools and if you wish breaker bars and hard rock tools. To get the good seam agate may require hard work. But, there is a lot of great surface material.

I will be out of town the month of September. Any questions ask around, a lot of members have been there. You can also call or e-mail me in October.

EDUCATIONAL OUTREACH

Steve Norman

Reno Gem and Mineral Society Education Outreach consisting of: **Sven Sanders, Rachel Carrol, Cate & Bob Tangren,** and **Steve Norman**. Part of the team made a presentations to Brown Elementary School on September 5 and 6. These 112 second grade student were enthusiastic about rocks and minerals! Great question about the difference between rocks and minerals and which rock or minerals that we liked the best. I said jasper and Rachel said selenite. Students learned about the many ways that rock and minerals are used in their everyday lives, **Rachel** explained many fossil types including some huge teeth from the megalodon shark and the teachers and students get a big smile when she mention dino poop or coprolite. There are many people working behind the scenes including **Steve Rose** supplying gifts for the students this time with labeled bags of selenite. **Sam Knipmeyer** provides teacher with mineral sets and beefs up our minerals collection that we show the students. **John Peterson**

SUMMER PICNIC

Denise Sizemore

Hi y'all,

I would like to use this opportunity in the *Conglomerate* to express my thanks to those below for making the 2019 Summer Potluck Picnic such a success.

Thank you to **Trevor Applebaum** of **Tholl Fence** for donating 10 plus pounds of grass-fed hamburger. To **Drew VanHooven** for sound system. **Eric Fendelander** and **Lori Connell** our cooks. **Laura Jackson** for running the Bingo games and the Door Prize event.

Thank you to all who donated to the Bingo and Door Prizes. Please be assured that all donations are benefitting and will continue to benefit the RGMS. Remember when you're on field trips to save a cool specimen for future Auctions and Door Prizes.

Thanks also to **Dean Sizemore** and the many behind the scenes helpers. We miss **Tamela Germano** and wish her a speedy recovery.

We had almost 60 people come to this, and I felt all went very smoothly for my never before having done this type of event.

Ed: Denise doesn't like to toot her own horn, but RGMS should thank her for doing all the shopping, slicing and cutting accompaniments, and prepping of 60 hamburger patties. Those are significantly time-consuming tasks. Thanks, Denise. You did a great job—not just of cutting and slicing, but also of organizing and planning.!
